SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React 19 (Hooks, Context API), Redux Toolkit, TanStack Query, React Hook Form, Angular.js
Responsive & UI: Flexbox, CSS Grid, MUI, Tailwind CSS, Radix UI/shadcn, ag-grid, Bootstrap
API & Auth: REST API Integration (Axios), Async/Await, OAuth 2.0 (Okta), JWT
Testing & Build: Vite, Vitest, Jest, React Testing Library, jsdom, TDD, Git-based CI/CD (GitHub), Agile/Scrum
AI/LLM: Ollama, Llama 3.2, RAG integration
Also Familiar With: Node.js, Django, FastAPI, MySQL, PostgreSQL, C/C++, Datadog, LogRocket

PROFESSIONAL EXPERIENCE

Software Engineer *Aug 2025 - Present*
Centralogic Consultancy Pvt. Ltd., Pune, Maharashtra

- Worked on **Agent Deal Desk**, a React.js/TypeScript commission and settlement calculation app, end-to-end - from development through production deployment.
- Implemented Role-Based Access Control (RBAC) in the user role management module, a core part of the platform's permission system.
- Migrated 40+ modules to V1, REST-standardized APIs across the platform, aligning the codebase with org-wide versioning conventions.
- Optimized API calls across modules individually using TanStack Query, cutting redundant network requests and improving page performance.
- Worked with sensitive financial and personal data, following data-handling best practices throughout the commission calculation logic.
- Wrote unit and component tests with Vitest, Jest, and React Testing Library as part of a Git-based PR/CI workflow, maintaining coverage above 70%.

Associate Software Developer *Sept 2024 - July 2025*
RoboMQ Pvt. Ltd., Jaipur, Rajasthan

- Onboarded onto a Retrieval-Augmented Generation (RAG) project within the first month, contributing to feature development.
- Collaborated with cross-functional teams in an agile development environment.
- Built a product guide feature for the company website and deployed it successfully.
- Attended daily stand-ups and sprint retrospectives to stay aligned on priorities and blockers.

React Developer Intern *May 2024 - July 2024*
Celebal Technologies, Jaipur, Rajasthan

- Contributed to a production web application using React.js, gaining hands-on frontend development experience.
- Collaborated within an Agile process, participating in sprints and team stand-ups.
- Debugged and resolved UI/UX issues, improving overall user experience.

PERSONAL PROJECTS

ApplyFlow - AI-Powered Job Application Autofill *Ongoing*
React.js, TypeScript, Chrome Extension (Manifest V3), Node.js, Express, Ollama, Llama 3.2

- Building a Chrome extension that autofills repetitive job application fields using saved profile details, with tested support for Workday and Avature-based application flows.
- Developed resume parsing with PDF/DOCX text extraction and local Ollama (Llama 3.2) to generate structured profile data, validated using Zod.
- Designed a privacy-focused workflow that keeps saved profile data in browser storage and leaves application submission under the user's control.

FGH - AI Virtual Try-On for E-commerce *Ongoing*
React.js, TypeScript, Node.js, AI/Computer Vision, E-commerce

- Building a personalized virtual try-on experience: users upload a photo and select attributes (gender, body type) to visualize products on themselves.
- Building the full-stack e-commerce platform (React.js, TypeScript, Node.js) covering product browsing, product management, and backend APIs.
- Designing an admin dashboard for managing products, categories, and inventory, with reusable, responsive UI components.

CERTIFICATIONS

- Introduction to HTML, CSS and JavaScript - Coursera
- Problem Solving - LeetCode, Coding Ninjas and GeeksforGeeks

EDUCATION

Swami Keshvanand Institute of Technology, Jaipur, Rajasthan - B.Tech in Computer Science *Oct 2021 - May 2025*
CGPA: 8.95
